

**SUNBELT**<sup>®</sup>  
RENTALS

**LIFTING**

**WE ARE A SKILLED  
TEAM, READY  
TO PROVIDE THE  
KNOWLEDGE,  
EXPERTISE AND  
EQUIPMENT FOR  
SAFE LIFTING  
& HANDLING  
OPERATIONS.**

Sunbelt Rentals offers a wide range of quality lifting and material handling equipment for hire and sale from industry leading manufacturers.

We also have one of the most technically experienced teams in the industry who are ready to assist with your lifting equipment needs.

# WELCOME

## Our services include:

- Hire and sales of globally branded lifting equipment
- Inspection service of loose and static equipment available onsite and in our service centres
- Magnetic Rope Testing
- Online certificate management
- Technical site surveys
- Delivery throughout the UK
- Full Member of Lifting Equipment Engineers Association
- UKAS accredited for ISO/IEC 17020:2012

All our equipment is CE/UKCA compliant, designed to reduce the health and safety risks from lifting, backed by a full service and maintenance history.

We have one of the most technically experienced teams in the industry, with dedicated personnel who are ready to deal with your lifting and handling enquiries.

# PRE-HIRE CHECKLIST

**Our pre-hire checklist is available to ensure you hire the correct equipment for the job.**

The peace of mind that comes from using Sunbelt Rentals as a supplier with fully maintained and regularly serviced equipment means that you can focus your time on other areas based on the knowledge that your lifting gear requirements are being met by a team of experts.

How to navigate your way around our brochure:

We have colour-coded our application areas to save you time and help you find exactly what you need. Please refer to the product link with each product for associated tackle for your required equipment. There is also a product index to enables you to source the equipment directly.

1. WHAT IS THE MAXIMUM WEIGHT OF THE LOAD?
2. WHAT HEIGHT OF LIFT OR LENGTH OF ROPE DO YOU REQUIRE?
3. DO YOU HAVE AN ADEQUATE AND SAFE SUSPENSION/ ANCHORAGE POINT?
4. HAVE YOU CONSIDERED ANY RESTRICTIONS THAT MAY AFFECT THE EQUIPMENT YOU CHOOSE - HEIGHT, WEIGHT, WIDTH?
5. HAVE YOU ASSESSED THE LOCATION WHERE THE EQUIPMENT IS TO BE USED?
6. WHAT POWER SUPPLY DO YOU HAVE AVAILABLE?
7. DO YOU REQUIRE ANY FURTHER EQUIPMENT?

# INSPECTION SERVICES

Sunbelt Rentals are full members of LEEA (Lifting Equipment Engineers Association) and accredited by the United Kingdom Accreditation Service (UKAS) for inspection services working to the standard ISO/IEC 17020:2012.

Our policies, practices, and procedures are consistent in terms of quality, independence, impartiality, conformity, and we have the necessary expertise in both the products which are inspected, and the services which are provided.

All our lifting equipment is CE/UKCA compliant, and we also offer a full aftersales and certification service for your own equipment, giving you the confidence that your owned equipment is also legally compliant.

Sunbelt Rentals are able to carry out thorough examination of equipment and accessories on site or at your own premises. Once compliant, we can advise you on certification, maintenance, such as colour coding, tagging, sales and replenishment of items.

We are also able to give you the capability to review your Reports of Thorough Examinations online.

# MAGNETIC ROPE TESTING

**Our new innovative Magnetic Rope Testing (MRT) service is now available at Sunbelt Rentals.**

Magnetic Rope Testing (MRT) is a special X-ray device for steel cables and ropes. It determines whether there are any hidden problems or weaknesses internally within cables or ropes, which are critical components on cranes, elevators, cable cars, and bridges. MRT uses magnets and sensors to find issues such as corrosion or breaks that can't be detected externally. Using the MRT can ensure that cables remain safe and won't fail unexpectedly, keeping people and structures secure.

MRT enables the internal inspection of the cables or wire ropes and can identify imperfections that could go unnoticed during a standard visual examination.

Additionally, it provides insights into the overall lifespan of the rope, aiding in the timely replacement of ropes to prevent possible premature failures.

Committed to safety, MRT allows us to thoroughly inspect critical equipment, ensuring that hidden defects in components such as wire cables are detected early.

With MRT, we're taking an extra step to enhance safety, providing peace of mind, and helping you prevent potential hazards before they occur. Safety is our top priority, and MRT is a testament to that commitment.

**Advice for Use**

**DO**

- Check the condition of the slings before use
- Check that the chain legs are not twisted
- Check that the load is on the centre of the hook and not the tip

**DO NOT**

- Do not carry out self repairs
- Do not use the slings over the maximum permissible limit or specified angle
- Do not shock load
- Do not use chain and accessories outside of temperature range -40°C and +200°C

# WE SELL AS WELL

Sunbelt Rentals also offers a wide range of products for sale to meet the needs of our customers who prefer to buy instead of hire.

The sale of lifting gear products is an area where the extensive experience of our staff will ensure you get the right product to facilitate your lifting and safety equipment requirements.

Every piece of equipment we offer is supported by an after-sales inspection and repair service which is based on the proven capabilities and resources which we devote to our own inventory of hire equipment.

Call 0808 196 9493 for sales.

Our range of lifting and safety equipment includes:

- Builders hoists
- Chain slings
- Chain blocks (manual and powered)
- Girder clamps/trolleys
- Fibre slings (duplex/round)
- Hydraulic jacks and rams
- Inertia reels
- Lever hoists
- Lashing systems
- Machine skates
- Pallet trucks
- Sack trucks
- Safety harnesses/lanyards
- Shackles
- Snatch blocks
- Pulling machines
- Winches
- Wire rope slings
- And much more

**GREEN PIN STANDARD BOW SHACKLES WITH SCREW COLLAR PIN**

- Grade 6 high tensile steel, quenched and tempered
- Minimum breaking load is 6 times the SWL
- Temperature range -20°C upto +200°C
- Report of Thorough Examination Supplied
- Conforms to EN 13889 and meets the performance requirements of US Fed Spec RC-C-271 Type IVA class 2, Grade A.
- Hot dipped galvanised

MODULAR CANTILEVER LIFTING BEAM

DIFFERENT SIZES AVAILABLE ON REQUEST

Product Link

-  Slings  
Shackles
-  Crane Hire

LIFTING BEAMS

- Up to 50 SWL
- 1m - 12m effective working lengths (subject to model type)
- Lightweight design
- Single or Multipoint Configuration
- Report of Thorough Examination Supplied

Product Link

-  Slings  
Shackles
-  Digital Load Indicator
-  Crane Hire

LATTICE ROOF SHEET BEAM

- Up to 3t SWL
- Available up to 42m length in 3m sections
- Lightweight
- Report of Thorough Examination Supplied

Product Link

-  Slings  
Shackles
-  Digital Load Indicator
-  Crane Hire

MODULAR SPREADER BEAMS (LIFTING BEAMS)

- up to 1000t
- 1m - 29m
- Mod Beam                      Cmod Beam
- Lattice Beam                      Cantilever Beam
- Spreader Beam

Product Link

-  Slings  
Shackles
-  Digital Load Indicator
-  Crane Hire

CMOD MODULAR LIFTING FRAME

- Spans 0.5m to 16m
- Capacities 6t to 140t
- Contact local lifting service centre for bespoke quotation
- Report of Thorough Examination Supplied

Product Link

-  Slings  
Shackles
-  Digital Load Indicator
-  Crane Hire

# MINI CRANE

The Mini Crane is a ground-breaking innovation in the world of compact lifting solutions. This revolutionary, fully electric-powered product redefines the boundaries of versatility and efficiency, offering a compact crane system that effortlessly combines power and precision in a compact design.

With its advanced technology and user-friendly features, this compact crane is set to revolutionise the way professionals approach lifting challenges, delivering unprecedented performance in a small package. The Mini Crane manoeuvres in tight spaces and can fit in a lift with ease.

## Features:

- Fully electric powered
- Up to 600kg
- Removable counterweight
- Remote control

Capacity	550 kg
Max. hoisting height	5,6 m and 4,4 m without options
Boom outreach	4,6 m and 3,3 m without options
Battery drive	24 V
Control	Remote control; proportional driving and hoisting
1st gear:	0,5 km/h
2nd gear:	1,1 km/h
Total weight	1060 kg and 960 with options
Hydraulic slewing range	136 degrees
Load moment protection	On overload 90% / 100%
Safety	CE Marking

# TRACKED CARRIERS

The 1200 series Tracked Carriers are the ideal all-round carriers. At just 750mm wide the 1200 R and 1200 PRO models can fit through most doorways, and with a substantial 1,200kg maximum capacity the uses are endless.

Tracked Carriers R models use state-of-the-art technology whilst being simple to operate, reliable and easy to maintain. PRO models offer increased features such as gradient monitoring, information feedback and a smart auxiliary output, ideal when increased safety measures are required or powered attachments make the job easier.

## Features:

- Power (max) 2.4kW
- Battery capacity 115Ah
- Charger input 110v-230v
- Max capacity on level ground 1200kg on page 17

	R Model	Pro Model

S & M versions also available as custom systems | WLL 5000kg dimensions systems are shown using the deeper 'D' section beam

Dimensions use standard Master Link Trolley, other options available to increase resulting height of lift (HoL) and to assist with load movement.  
\*Weight includes stabiliser legs

- A Beam length
- B Beam adjustment
- C Clear operating span
- D Height to lifting eye
- E Height increment
- F Height to top of beam
- G Width
- H Height to top of roller

		Standard Beam Length A[mm] (Clear Operating Span C = A - 920 mm)							
A [mm]		2500	3000	3920	4570	5500	6000	8400	9000
C [Min] [mm]		1180	1680	2200	2050	2980	3480	5880	6480
C [Max] [mm]		1580	2080	3000	3650	4580	5080	7480	8080
WLL Rating [kg]	500	19	22	29	34	41	44	62	66
1000	19	22	29	34	41	44	79	84	
2000	19	22	29	34	52	93*	130*	x	
3000	19	22	37	43	85*	93*	130*	x	
5000	39*	47*	61*	71*	85*	x	x	x	

Weight of Beams [kg]

\*Clear operating span for D section beams is C = A - 910mm.  
To ensure stability of the structure, the operating span of the beam must be equal to or greater than the distance between the castors on the A-frame

**GML 800+ M-SERIES MATERIAL LIFT**

- High safe working loads, versatile applications, ease of operation and durability are some of the most important aspects in the development of the GML800+ range.
- Manual winch, each with worm gear for powerful use or small use of force when cranking.
- The GML800 + series is constructed such that the outriggers can be mounted to the front and to the rear on the chassis. This allows to combine the lift on respective use and local conditions individually

**GML 800+ IS AVAILABLE IN**

M-Serie	GML800+ /10/M	GML800+ /15/M	GML800+ /20/M	GML800+ /25/M
Working height - Standard fork up	3.49m	4.98m	6.46m	7.94m
Transport position - height/length/width	1.98/1.00/0.78m	1.98/1.00/0.78m	1.8/1.00/0.78m	1.98/1.00/0.78m

	CONCRETE PIPE LIFTER
	Designed for the safe lifting of pipes from transport vehicles to the placement within trenches.
	The RVD-4 can be attached to any lifting device with a quick change facility.
	Capable of lifting one pipe up to 4,000kg and with diameters of between 300mm to 1,200mm.
	Carrying Capacity - 4000kg SWL
Gripping Range - 300mm -1200mm	
For use with suitable plant (Quick hitch operation)	

	VACUUM LIFTING EQUIPMENT VH1	Product Link
	Carrying capacity 25kg and 50kg SWL	 Pallet Trucks Bogeys
	One person operation for lightweight slabs and short transportation distance	
Two person operation upto 50kg

# LOAD MEASUREMENT

- DIGITAL LOAD INDICATORS
- COMPRESSIVE LOAD INDICATORS
- TEST WEIGHTS
- TEST CRADLES

	DIGITAL LOAD INDICATORS	Product Link
	Up to 100t SWL	
	Remote readout available	Shackles
	Compact and lightweight	Hoisting
	Accuracy: ± 0.2% of nominal capacity	Winching
	Report of Thorough Examination Supplied	

	COMPRESSIVE LOAD INDICATORS	Product Link
	Up to 100t SWL	
	Hand held readout	Pump Hose Manifolds Gauge
	Robust and compact	
	Report of Thorough Examination Supplied	

	TEST WEIGHTS	Product Link
	Wide range available	Slings
	Transportation supplied	Digital Load Indicator
	Report of Thorough Examination Supplied	Pallet Trucks Bogeys Stillages

	TEST CRADLES	Product Link
	Wide range available	Slings
	Full specifications upon request	Digital Load Indicator
	Report of Thorough Examination Supplied	Pallet Trucks

	WEIGHT STILLAGE AND TROLLEY
	Designed to enable the user to easily move weights around and greatly reduce the level of manual handling required
	Each stillage can hold 4 no 20kg weights and added to the self-weight of the stillage totals 100kg
	Each stillage with weights can then be transported by the trolley and positioned where required eliminating any carrying of the weights
	For most hires only one trolley would be required and the respective number of weights and stillages to achieve the required total weight requirement by the customer
	Commonly used for all types of testing work

# HEAVY LIFT AND CRANE HIRE

- CRANE ACCESSORIES
- CRANE HIRE
- LOAD WEIGHING EQUIPMENT
- HEAVY DUTY SLINGS
- LIFTING BEAMS
- MODULAR BEAMS AND ACCESSORIES
- SHACKLES

We are proud to offer a variety of **Heavy lift and Crane Accessories, including industry changing Modulift Spreader and Lifting Beam range that can offer lifting solutions up to 1000 tonne SWL.**

Our range of Heavy Lift equipment is immediately available for hire or supply and our team of experts can carry out site surveys to help find solutions to overcome any Heavy Lift challenge our customers may face.

## OUR RANGE OF ACCESSORIES INCLUDE:

- Modular spreader beams up to 1000t
- CMOD Lifting Frame up to 250t
- Widebody shackles up to 500t
- Wire ropes/grommits 600t
- Dyneema ropes and slings
- Crane accessories and mats
- Active Link drop links with data logging available

## OUR SERVICES INCLUDE:

- Bespoke design and manufacture of lifting beams/ accessories
- Advice on rig planning and full
- Site Surveys

	MINI CRANES	Product Link
	Up to 2t SWL	 Portable Hoists  Electric Hoists
	Small and compact	
	Report of Thorough Examination Supplied	 Slings  Shackles
	Ideal for Curtain Wall installation	
Battery powered		

	SPIDER MINI-CRANES	Product Link
	Up to 1t SWL or four men	 Digital Load Indicator
	Compliant to current legislation	
	Report of Thorough Examination Supplied	 Slings  Shackles

	CRANE LIFTING ACCESSORIES
	Up to 100t SWL
	Conventional and all terrain specifications
	Site survey available upon request
	Banksman/riggers and appointed person supplied if required
Report of Thorough Examination Supplied	

	CRANE SKIPS	Product Link
	Up to 2000L	 Crane Hire
	Master flow, geared, rollover and funnel types available	
	Report of Thorough Examination Supplied	 Slings  Shackles

	MAN-RIDING AND STRETCHER CRADLES	Product Link
	Up to 1t SWL or four men	 Harness  Escape sets
	Variety of sizes/models available	
	Compliant to current legislation	 Crane Hire
	Report of Thorough Examination Supplied	 Slings  Shackles

# BESPOKE DESIGNS AND SOLUTIONS

Sunbelt Rentals is able to arrange the design, manufacture and supply of a wide variety of lifting equipment, working with expert supply partners to ensure our customers get the highest quality and safest equipment every time.

We are always looking for innovation, to develop and adopt new lifting equipment to assist our customers. By working with our expert supply partners, all designs are fully supported by technical files with design calculations and drawings and we have worked alongside many of the UK leading names in Construction, Glass panel installation and Structural engineers.

# CASE STUDIES

**Client** MGA Northwest Limited  
**Project Name** Birkenhead Bridge  
**Location** Birkenhead, Wirral

## THE CHALLENGE

This was a high profile project as there was significant disruption to the travelling public during the dismantling work. The route between Wallasey and Birkenhead is ordinarily very busy and there was no through route along Tower Road during the works, so time was of the essence. The bridge needed to be lifted by a floating crane and lifted over 300 metres to the quayside. With uncertainty relating to the exact weight of the bridge, Sunbelt Rentals were tasked with supplying over 400 tonne of lifting tackle to complete this challenging lift.

## THE SOLUTION

Following an assessment of the lift based on the customer's plan, Sunbelt Rentals provided a comprehensive list of all the products and accessories needed to complete the lift successfully. This comprised a floating crane capable of lifting the structure and carrying it across to the quayside. The product range supplied by Sunbelt Rentals included a 400 Tonne Modular Beam, 250 Tonne Dyneema Round Slings, 110H Modular Beams, 58 Tonne Wire Rope Slings, 55 Tonne Collar Chains and Widebody Shackles. Due to the heavy weight of the dismantled steel bridge, Health and Safety was the ultimate priority and Sunbelt Rentals' expertise in the lifting sector was absolutely critical.

[SUNBELTRENTALS.CO.UK](http://SUNBELTRENTALS.CO.UK) FOR MORE INFO

## THE RESULTS

The lift was successfully completed in a single day with all lifting equipment supplied by the local Sunbelt Rentals service centre in Liverpool. This project showcased Sunbelt Rentals' investment in heavy lifting equipment, and our expertise in completing demanding lifts.

**Client** Osprey Ltd  
**Project Name** Water for Maiden Voyage  
**Partner Supplier** Modulift

## THE CHALLENGE

Osprey accepted a scope of work from shipbuilder Wight Shipyard to move the vessel from the shed where it was built to the water at Venture Quays, Cowes on the Isle of Wight, before a course was set for its final destination in Austria. The 250-passenger Twin City Liner is 39.7m long, 11.1m wide, and 6.8m high.

The first challenge was removing the vessel, which is due to arrive in Vienna in time for the start of the new season at the end of March 2019 from its building. Osprey selected two, six-axle Goldhofer self-propelled modular transporters (SPMT) to work in tandem to move the load to within the reach of the Liebherr LTM1800D. The crane was complete with a 36m high rig, designed to accommodate a 3.7m centre of gravity offset and different elevations of the boat's lifting eyes.

## THE SOLUTION

A Modulift MOD400 was used at a 29m span beneath 29m long and 26.4m long top slings to balance the lift, these Dyneema and polyester slings also provided by Sunbelt Rentals. Two MOD70H beams were used underneath, one at 5.5m long and the other at 4m. Again, two different lengths of sling were used to connect them to the top beam—3m at the stern (back) and 3.9m at the bow (front). The slings that met the lifting eyes at the bottom of the rig were all 4m in length.

Danny Skidmore, heavy cranes manager at Osprey, said: "We had to work closely with shipbuilders and naval architects, and refer to CAD (computer-aided design), to devise a method of lifting the catamaran safely and completely level. The previous time we lifted such a vessel, we used two cranes in tandem, but mobilising two cranes of that size represents a large-scale operation and high costs, not to mention the disruption it has on the shipyard. We wanted to come up with a way to minimise mobilisation and limit the impact on our client's busy, marine environment."

# CASE STUDIES

**Client** NG Bailey  
**Project Name** Custom Electric Stackers  
**Location** The Forge, 105 Sumner Street, London

NG Bailey is the UK's leading independent engineering and services business, bringing buildings and infrastructure to life. One of their latest projects is a multi-level development in Central London called The Forge. The Forge is two new-build commercial office buildings, built around a publicly accessible internal courtyard, in total comprising c. 139,000 sq ft. It will be nine storeys high with reception and basement areas. The development will be a high quality and sustainable building with a vastly improved streetscape and public realm. NG Bailey approached Sunbelt Rentals during the early stages of the project to support with developing a solution to safely lift and install pre-assembled modules. The modules were manufactured off-site and contained all of the electrics and pipework needed during the construction of the development.

## THE CHALLENGE

NG Bailey had initially planned on using standard stackers to lift the modules into place, however this presented a number of challenges.

The stackers needed to be a net weight of less than 2,000 kg to be transported using a goods lift between floors. Standard forks wouldn't be long enough to lift the modules into position, however adding extension forks would have gone against the manufacturer's recommendation, so wasn't an option.

[SUNBELTRENTALS.CO.UK](https://www.sunbeltrentals.co.uk) FOR MORE INFO

▲ With a challenging set of project constraints, it was great to see Sunbelt Rentals understood our needs both on paper and on site. Since using the custom stackers, we have increased our module installation productivity and made the installation process safer due to the extended forks. ▲

Chris Baggley,  
Project Engineer,  
NG Bailey

## THE SOLUTION

Working closely with our supplier, SHS Handling, Sunbelt Rentals developed and engineered a custom solution, an extended fork electric stacker. The weight of these custom designed stackers was kept below 2,000 kg so they could use the goods lifts on site, they also gave NG Bailey maximum clearance between the forks and mast so the modules could be positioned correctly. The solution was engineered, manufactured and delivered to site within 12-weeks.

## THE RESULTS

Sunbelt Rentals invested in four of the custom designed stackers and supplied them to the site in early September ensuring NG Bailey were able to complete that phase of the project safely, on schedule and without disrupting the wider site. The stackers are now on long-term hire with NG Bailey.

# PROVIDING RENTAL PRODUCTS AND MANAGED SOLUTIONS INTO EVERY MARKET AND SECTOR

## Flooring Solutions

Floor care and maintenance equipment to prepare, clean and maintain any floor, any size, anywhere

## Lifting

Our solutions have been used on 7/10 of the tallest buildings in the UK

## Energy

From fuel saving cleaner energy solutions to the latest stage v generators, we have a temporary power solution for every site

## Tools

From battery powered hand tools to compressors, compactors and cleaning equipment we offer a wide range of tool hire that's local to you

## Powered Access

The combined height and reach of our equipment can transport you safely over 50,000 metres

## Plant

The widest range of plant including the latest stage v and battery powered machines in the UK

## Plant Attachments

The sole UK distributor for several of the world's leading attachment manufacturers

## Survey

Industry-leading supplier of land survey and precision measurement technologies

## Test & Monitoring

Europe's leading test equipment specialists since 1996

## Industrial

On your site to meet the demands where every second counts

## Utilities

The UK's largest specialist Utility hire company

## Safety & Communications

Knowledgeable and experienced specialists in this field

## Trakway

Award winning engineered access and ground protection solutions

## Traffic Management

24/7 national coverage with operations covered by QEHSS accreditations

## Barriers & Fencing

Crowd control and perimeter security solutions

## Film & TV

From cameras, grip and lighting to backlot infrastructure

## Non-Mech

Essentials for every site; fencing, barriers, trenching, ground protection, vehicle and pedestrian control solutions

## Rail

We support the Network Rail and Transport for London infrastructure

## Hoists

We hold over 10km of mast sections, enough to scale London's Shard building over 32 times

## Formwork & Falsework

We are the exclusive hire supplier of MEVA products in the UK

## Training

Dedicated Health and Safety training to qualify our own people and our customer's people

## Lighting

The UK's largest fleet of state-of-the-art tower lights, including a wide range of solar, hybrid and plug-in options

## Climate Control

Economical and efficient temperature control and HVAC solutions

## Accommodation

24/7/365 call out facility covering 20,000 items on fleet
